

Use the world's leading suite of assessment software to identify learning difficulties, establish intellectual ability and inform your teaching.

Assessment Package – High Schools

The combination of software products below provides you with an effective, easy-to-use, research-based way of identifying learning disabilities and establishing intellectual levels (verbal and non-verbal reasoning). Tests can be administered by a teacher or teacher-aide. Educational support/advice from NZCER-Registered 'C' Grade Assessor is available on request (free – up to a reasonable limit!) and additional training can be provided.

Please note that these software programs are available separately. However, there are savings by purchasing a package, which caters for all your learners. All prices exclude gst. There is no limit to the number of assessments done during the licence period.

Assessment Software - PC only (Mac versions not available)	1 year licence
LASS Secondary – 11-18+ years Diagnostic programme identifying dyslexia/other processing issues	\$350
Lucid Ability – 4-16 years Intellectual functioning – verbal/non-verbal reasoning	\$210
Exact – 11-24 years Literacy skills – information for reader-writer applications	\$330
Recall – 7-18 years Detailed assessment of working memory and processing speed	\$210
Recommended High Schools Package Includes all four programs above. Now includes Recall to comply with new SAC requirements.	\$1,050 (Save \$50)

Notes

Lucid Assessment software is PC compatible only.

The Lucid Assessment software quoted above requires the disk in the computer to run. It is not a network version. Network versions can be supplied, but are rarely needed. Please contact us if you would like details/pricing for networked options.

Full **technical support** is provided for all software purchased from The Learning Staircase. See our contact details below.

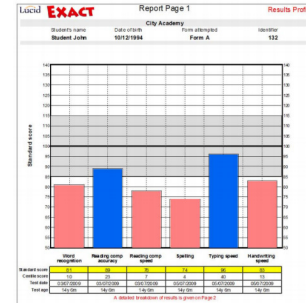

Educational support is also available. Schools/RTLBs are welcome to ring our assessor, Ros Lugg, for further information and to discuss options. When using assessment software, schools can contact Ros for help with interpretation or guidance on 'where to go next'.

Other package deals are available. If you have budget constraints or you need a different combination of Lucid products, please call us to discuss options.

Lucid Exact (ages 11 – 24)

Lucid Exact provides precise standardised assessment of:

- Word recognition/reading accuracy
- Reading comprehension
- Reading speed
- Spelling
- Writing to dictation
- Typing to dictation

Lucid Exact can be used to evaluate a learner’s needs on starting high school, as well as their needs for SAC.

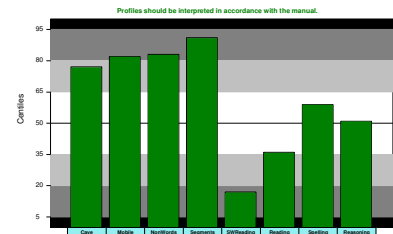

Results from Lucid Exact are acceptable on SAC applications.

LASS Secondary (ages 11-18)

LASS Secondary provides standardised assessment of:

- Visuo-spatial memory
- Auditory sequential memory
- Non-word reading
- Phonological awareness
- Single word reading
- Reading
- Spelling
- Non-verbal reasoning

Module	Score	Centile	Std. Error	Z Score	Z Score Difference	Discrepancy	Test date	Test age	Age eq.
Visuo-spatial memory	87	77	111	0.736	0.73	→ 1p < 0.05	13/05/2013	13 y 2 m	13y 6m
Auditory sequential memory	8	82	113	0.915	0.89	→ 1p < 0.05	08/05/2013	13 y 1 m	14y 6m
Non-word reading	13	83	114	0.954	0.93	→ 1p < 0.05	13/05/2013	13 y 2 m	13y 6m
Single word reading	28	91	120	1.341	1.32	→ 1p < 0.01	13/05/2013	13 y 2 m	13y 6m
Reading	28	17	88	-0.943	-0.98	→ 1p < 0.05	08/05/2013	13 y 1 m	13y 6m
Spelling	0.0002	35	84	-0.309	-0.38	Not significant	08/05/2013	13 y 1 m	13y 6m
Non-verbal reasoning	0.0002	56	103	0.407	0.2	Not significant	13/05/2013	13 y 2 m	13y 6m
Non-verbal reasoning	0.0002	51	100	0.405	0.2	Not significant	08/05/2013	13 y 1 m	13y 6m

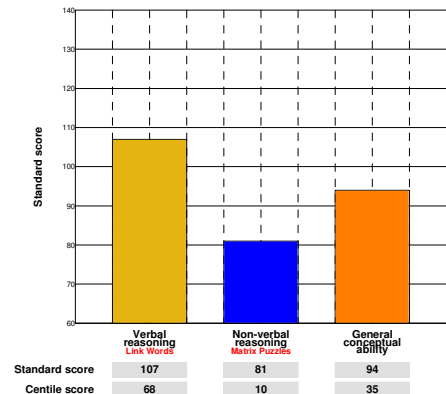

This provides an easy-to-administer way of identifying learners with specific learning disabilities.

Lucid Ability (4-18)

Lucid Ability provides a standardized assessment of Verbal and Non-Verbal Reasoning, which is a valid indicator of intellectual ability.

Note: All of the above programmes include free help with Interpretation from an NZCER Registered ‘C’ Grade Assessor.
