

COMPREHENSION BOOSTER

(Formerly Reading Booster)

The targeted way to improve comprehension

Provides enjoyable and interactive passages with challenge words for developing both **READING** and **LISTENING** comprehension (ages 7–14+)

School and home — suitable for use at home as well as school.

Improves:

- **Comprehension** (reading and listening)
- **Vocabulary**
- **Reading speed**
- **Inferential thinking**
- **Understanding complex texts**
- **Concentration**
- **Attention**
- **Fluency**
- **Confidence**

Intervention

Ages 7 – 14+

“Comprehension Booster has been an excellent addition to the department resources.

Children enjoy the stories and are motivated to reach the next level. Adapting the font size, background colour, just text or text and speech allows the stories to be personalised to suit individual needs. Comprehension Booster helps to develop the skills of skimming, scanning, comprehension and vocabulary. I always feel the children have spent their time well after a session on Comprehension Booster.

Teacher, Derbyshire

Not just reluctant readers — the adaptive algorithm and the user friendly presentation (up to 140 illustrated exercises) mean that the program is suitable for **all readers**.

Supports and stretches — activities are automatically tailored to the individual rate of learning, only presenting difficult or ‘challenge words’ (with written and spoken definitions) when appropriate. Teachers can personalise targets for the individual or class.

Listen only mode — especially helpful for auditory processing difficulties, semantic language disorder, or general language delay.

Monitor and report progress — reports show comprehension accuracy, reading speed, overall reading ability and reading progress.

Comprehension Booster Standard Edition comes complete with **70 fiction** exercises. An **Expansion Pack** is also available featuring an additional **70 non-fiction** exercises.

MEMORY BOOSTER

The proven way to develop memory, attention and concentration

Provides enjoyable practice, key strategies and challenging tasks in an adaptive way for children of all abilities (ages 4–11+)

Proven benefit — research has shown that Memory Booster improves:

- **Memory**
- **Concentration**
- **Attention**
- **Ability to follow instructions**

“ [Memory Booster] is easy to use and requires little or no teacher assistance. The children are taught different memory strategies throughout the game.

I would recommend this...to anyone working with children...If you are looking for a fun, easy-to-use and effective program to improve your child's memory skills, **I would have no hesitation in recommending this product.**

Independent teacher review in 'Unique' magazine ”

Suitable for all children — helps all children and not just those with identified memory difficulties or dyslexia.

Enjoyable and adaptive — children can work unsupervised or supervised since the program adapts to each child's rate of learning. Teachers can tailor the program to cater for individual needs.

School and home — many teachers recommend Memory Booster for use at home as well as school. (Home version has fewer options.)

Progress and reward — progress is easily monitored, and built in rewards motivate children of all abilities, plus printable certificates of achievement.
