

Use the world's leading suite of assessment software to identify learning difficulties, establish intellectual ability and inform your teaching.

Assessment Package – Primary Schools

The combination of software products below provides you with an effective, easy-to-use, research-based way of identifying learning disabilities and establishing intellectual levels (verbal and non-verbal reasoning). Tests can be administered by a teacher or teacher-aide. Free educational support/advice from NZCER-Registered 'C' Grade Assessor is available on request and additional training can be provided.

Please note that these software programs are available separately. However, there are savings by purchasing a package, which caters for all your learners. All prices exclude gst. There is no limit to the number of assessments done during the licence period.

Assessment Software - PC only (Mac versions not available)	1 year licence
Lucid CoPs – 4-8 years Diagnostic programme identifying processing difficulties/dyslexia	\$285
LASS Junior – 8-11 years Diagnostic – identifies dyslexia/other processing issues	\$275
Lucid Ability – 4-16 years Intellectual functioning – verbal/non-verbal reasoning	\$210
Recommended Primary Schools Package Includes all three programs above.	\$735 (Save \$35)

**Network versions are also available. Please contact us for pricing*

Notes

Lucid Assessment software is PC compatible only.

The Lucid Assessment software quoted above requires the disk in the computer to run. It is not a network version. Network versions can be supplied, but are rarely needed. Please contact us if you would like details/pricing for networked options.

Full **technical support** is provided for all software purchased from The Learning Staircase. See our contact details below.

Educational support is also available. Schools/RTLBs are welcome to ring our assessor, Ros Lugg, for further information and to discuss options. When using assessment software, schools can contact Ros for help with interpretation or guidance on 'where to go next'. This

is usually free, but we reserve the right to apply a charge if schools/RTLBs require an excessive amount of support on a regular basis!

Other package deals are available. If you have budget constraints or you need a different combination of Lucid products, please call us to discuss options.
